

Name _____ Date _____ Per _____

Mendelian Creature Follow-Up

1. Is your creature nocturnal? Or does it move about during the day?
2. Where would your creature live? Woods? Grassland? Other? Why? Describe its habitat and niche.
3. Is your creature a vegetarian, or a predator?
4. What are the positive and negative features of your creature?
5. How likely is your creature to survive and reproduce in its habitat?
6. Look at other creatures in the room. What other creatures with different phenotypes, living in different habitats, can also survive and reproduce?
7. Of all of the creatures in the room, which is the best predator?
8. Which of the creatures is the wimpiest?
9. Which creature is better?
